

# Pulmonary Hypertension Summit 2007

November 16 - 17, 2007 | Cleveland, Ohio | InterContinental Hotel and Bank of America Conference Center

## This Summit will focus on:

- Recent advances in the management of Pulmonary Hypertension.
- When to suspect Pulmonary Hypertension and how to diagnose it.
- The current approach to Pulmonary Hypertension in the presence of associated or underlying disease(s).
- Using a case-based approach to the practical aspects of Pulmonary Hypertension management

## Target Audience:

The Summit is intended for physicians, physician assistants, and nurses with an interest in pulmonary disorders, rheumatologic diseases, cardiovascular diseases. The case-based and practical approach of the sessions will also make this extremely relevant for internal medicine and primary care physicians.

Patients who suffer from pulmonary hypertension will find the didactic sessions to be informative. There will be patient focused question and answer sessions about issues relevant to the concerns of PH patients such as dietary restrictions, travel, and medication management. These sessions will offer ample opportunity to clarify issues regarding patient care.

This activity has been approved for *AMA PRA Category 1 Credit™*.
